SUMMARY

As a software developer with more than 1 year of direct experience in programming and technical troubleshooting. I have the ability to work expertly with the team and am committed to continuous professional development. I look forward to adding value to the work I develop with my team, so that users can use it effectively and bring success to your team and organization. I look forward to the opportunity to contribute to your organization. Thank you for considering my application.

OBJECTIVE

I am looking for a job related to being a backend developer or web developer because I believe it is a challenging position and can seamlessly combine strategic thinking in software troubleshooting. I am committed to using my knowledge and skills to develop the most effective solutions for users and organizations. I am also eager to learn and adapt to new technologies to continuously improve my work potential. I am committed to being part of a team that produces great and challenging results to impact the development of the digital world.

WORK EXPERIENCE

position PHP Developer

company Bizpotential

duration Oct 2022 - Present (1 year 7 months)

details As a developer, I have been involved in the development of web applications using web-based technologies, including PHP, JS, CSS, HTML, and creating REST API services to serve applications for organizations, including government agencies, using web-based application development tools.

PROJECTS

Government Inspection System, Office of the Permanent Secretary, Ministry of Energy.

Bangkok Metropolitan Administration's Electronic Document Management System, Meeting Room Management Module.

Currency Authentication and Property Valuation System for Heritage Conservation and Asset Assessment Services.
